PROGRAM

## TOPIC

# A-Z in Root Canal Treatment of Posterior Teeth

Routine endodontic practice throws up various forms of endodontic challenges including canal calcifications, extra canals, acute curvatures, management of ledges, separated instruments and recalcitrant infections. This presentation would provide a clinician with various practical clinical tips to prevent and overcome such challenges. An evidence based clinical work flow to perform predictable endodontics would be presented. Video demonstrations enlightening the same would be part of this one day Masterclass program.
